Does this Coverage Meet the Minimum Value Standard? The ACA rates health plans available through the state Exchanges by assigning them a “metal” category, based on the average percentage of covered health costs payable by the plan. Bronze plans have a minimum value standard of 60%, Silver plans have a minimum value of 70%, Gold plans have a minimum value of 80% and Platinum plans have a minimum value of 90%. **The Fund’s consultant has determined that your coverage under Plan Q is the equivalent of a Gold plan on the state Exchange.**
