Meet Rose

When Rose Hemmitt, a UFCW Local One member, was diagnosed with kidney failure. She never imagined that an organization like Rejuvenate Kidney Transplant Solutions could help her the way they did. At first, she was skeptical – could they really help her find a kidney faster or navigate such a complex transplant system? She saw firsthand that Rejuvenate’s transplant patients are their number one priority and in July 2024, Rose received her lifesaving kidney transplant. Thanks to the partnership between the UFCW Local One Union and Rejuvenate, she’s now focused on what matters most: planning for the future and spending more time with her family, friends and grandsons.
